Integrated Relocation Services
2627 Sandy Plains Road
Marietta, Ga 30066

August 24, 2007

To Integrated Relocation Services:

I wanted to take a few minutes to express my complete satisfaction with your company's performance during our move. Before meeting with Integrated I believed this was going to be a very stressful experience. The Fish Hawk had been at the same location for 30 years and to move our large inventory and remerchandising in an organized manner seemed overwhelming. Integrated's team of professionals proved me wrong. They made the transition work in everyway for us and we would highly recommend Integrated Relocation Services to anyone who needs a focused and effective moving team to complete any job.

The turnkey services provided by Integrated truly made my life easier and less stressful. The voice and data cabling, phone system, office furniture and computer system were installed and operational when promised and all services were still at the same low price that was promised. In addition all of my outdated confidential business records were given to Integrated for destruction and I received a certificate of destruction the next business day.

Thanks to Kevin, Rob, Brad and their crews for performing as promised and helping my business stay in business.

Gary Merriman
